Democratic Convention.

KYLE, Sept. 3, 1882. EDITOR FREE PRESS: The Democracy of the 91st representative district are hereby called to meet in convention at the town of San Marcos, in said district, on the 21st day of September, 1882, then and there to nominate two candidates for representatives in the next Legislature of e of Texas. Ferg. Kyle, Ch'm Ex. Com., for said district. the State of Texas.

WITH the present fine crop prospects and new postoffices and more frequent mails, we count on large additions to the subscription list of the FREE PRESS. Will not the friends of a home paper call the attention of their neighbors to it, and ask them to subscribe?

various parts of the country here attending very high and dangerous to cross. It had court this week, and we have heard many expressions of satisfaction at the solid appearance of the new Court House. Those who saw how the foundation was built up will have no fears as to the permanency of the building. Messrs. Donalson & Rogers, the contractors and builders, have evidently determined to complete the work in strict in the evening we got to camp, found all in accordance with all the specifications.

State Ticket.

Some may think strange that we do not place the State ticket at our masthead. We will therefore say in the language of the Orange Tribune, that whenever the candidates on the same "fork over" \$10 a piece we will insert, and not before. Ous space is valuable to us, and we don't propose to give it away for the benefit of men amply able to pay for it. No expenss is spared on State campaigns save in the direction of the newspapers, and it is high time there was a reform in the impositions practiced upon them.

Personal.

Prof. Garrison is in town.

Dr. Lewis Cock is at home.

Giesen will be in his new store next week. Mrs. McAllister has gone to Lampasas for the benefit of her health.

Miss Smithers, of Huntsville, takes the place of Miss Baldwin in the Institute.

The damage done by the storm at New Braunfels is estimated at \$20,000. J. J. Driskill arrived on yesterday from

Brown county. Elder Charles, of Junction City, lectured acceptably at the Christian Church on Mon-

day night. The many friends of Dr. Sam Dailey will

be glad to learn that he is expected home this week. Major Nance was here on Monday, and

infomed us that his mill was not seriously injured by the high waters. Mr. Palmer has removed his sewing ma-

chine business into one of Capt. Ellison's rooms, north side of square. Mr. Rockwood who went with Harvey's

and Lindseys on their late excursion, was not benefited thereby. The Misses Hanson, who spent the summer at Mrs. Franklin's returned on Tuesday

to their home in Donaldsonville, La. The new railroad agent at this place, Mr. The new railroad agent at this partial the District please copy.

> Mr. Chenoweth has returned from a trip of some two weeks to his old home in Plinois and points adjacent and intervening. Found roasting ears just coming in there, and all kinds of fruits and vegetables in their glory.

Rev. Mr. Strayhorn, Cumberland Presby-terian, of Round Rock, held a series of meet-ings this week, closing on Sunday night. Quite an interest, we learn, was manifested, and in some unusual directions.

We had the pleasure this week of making the acquaintance of Capt. McClenden, of Dripping Springs. We were glad to hear that he anticipates several new subscribers to the FREE PRESS.

Miss Nollie Smith will not be with or of the Institute during the present term. Her successor in the art department, etc., is a lady from Oxford, Miss., whose name we have been unable to learn.

W. C. Dugger, "der drummer," recently took to the Houston Cotton Exchange a cotton stalk which had over 450 well developed bolls on it. It was grown on the farm of John McGehee.

"Leander swam the Hellespont, all for to see his dear," so says the poic; and another swain, late of this place, now of New Braunfels, last Sunday swam the Guadalupe (on a horse) to meet his lady-love here. Verily there is some gallantry yet left.

Harveys and Liudseys returned home last week. They visited Blanco, Llano, Sau Saba, Brownwood and Coleman. They report wonderful improvements in all that region within the past few years. Notwith-standing the inclement weather, they had rather a pleasant trip, and all return in improved health.

Mr. Hankla returned last week from his tour to southwestern Virginia. He reports decided evidences of progress there. The great iron and other mineral wealth of that region is likely soon to be developed. Farmers there pay \$5 per acre for fertilizers and make it pay well. What do our Texas farmers think of that?

From Mexico.

RAILBOAD CAMP, MEX., Sept. 1, 1882. EDITOR FREE PRESS: I thought may be you and my many other friends at Sau Marcos might want to hear from me after my arrival at camp. I came through to Lare THERE have been numerous citizens from |do on time. Here I found the Rio Grande already washed off two spans of the railroad bridge, and was still on the rise, so I ventured across, landed safe without any accident in New Laredo, Mexico, stopped over all night, met my little boys here with a hack for me. Started early for camp in the rain. It rained nearly all day on us. Late good shape, and then I went to work to straiten up my old shot gun for the "manyana" to-morrow to stir up the deer. After a good night's rest I sallied forth in quest of game. After going half mile from camp I found the trail of five deer. I took it, and after trailing them about half mile further I came on them feeding. I picked out a good looking buck and fired on him at a distance of about sixty yards. I put four buckshot in him but neither one of them gave a mortal wound, so it gave me a lively chase for a mile or so, when I succeeded in getting a second shot at him which brought him to the ground. He was a fine fat deer, a buck with six points on his horns. During my chase after my big deer, a little one crossed my path and I gave him a load of shot, knocking him heels over head, but he got up and ran off, and I still followed after my big deer until I got him, and by this time the rain had obliterated the tracks so I did not find the small deer, but as soon as we eat up the deer I got, I will kill again, as they are plenty here.

I think they will resume work on the railroad in about fifteen days. We have had fine rains, and the grass is fine. My stock

We hear very little about the yellow fever out here. There was a man by the name of Celbert murdered out here close to camp the other day, supposed to have been murdered for money. The murdering is charged to Americans. I will give you a fuller statement in my next letter in regard to the Yours respectfully,

W. S. GULLETT.

Democratic Convention.

By virtue of the authority in me vested I hereby call a Democratic Convention to to assemble at San Marcos, Hays county, on Thursday, the 21st day of September, 1882, for the purpose of nominating a Democratic candidate for Senator from this the 25th Senatorial District of Texas. All papers in

The Nation's Characteristics.

Shrewdness and incredulity are the predominant characteristics of the American people. They will take no stock in an article unless it is meritorious. When Dr. Swayne launched his Ointment for the Piles, that ich so intensely at night, on a sea of human suffering the physicians laughed, but the people tried it all the same and manifested their approbation in a National endorsement. Now the allopaths and homospaths are laughing the other way. This world is full reverses.

Over 93,000 trees have been plant ed in Kansas since the forestry laws have been enforced.
